FOR IMMEDIATE RELEASE

COLLIERS PROJECT LEADERS USA TO DELIVER MASTER FACILITIES EXPANSION TO THE MAINE MEDICAL CENTER

PORTLAND, ME – February 19, 2020 – Colliers Project Leaders | USA is delivering comprehensive project management and owner’s representative services on extensive expansions to Maine Medical Center in Portland, Maine. The multi-phased project includes a new, 270,000-square-foot inpatient tower, a new patient and visitor parking garage providing 225 additional spots, a three-story expansion to the East Tower and a 110,000-square-foot medical office building for neuroscience, vascular surgery and ENT, as well as a 2,450-car parking garage for staff and visitors. Delivered in four phases, the \$536 million project is the largest expansion in Maine Medical Center’s history. The Colliers team is led by **Dominic Gagnon**, Senior Vice President, **Adam Troidl**, Vice President, and **Ashley Roan**, Project Coordinator.

The first phase involved a three-story overbuild on the current eight-story Patient & Visitor Parking Garage providing 225 additional parking spaces, as well as an additional three-story overbuild on the current East Tower, which created two-stories for 64 inpatient oncology beds and two rooftop helipads. The second phase of construction focuses on the new, state-of-the-art staff parking garage. This 9-level garage is the largest north of the Boston metro area and provides visitors and staff with 2,450 new spaces and a technologically empowered system to measure vacancies.

The third phase of construction, targeted for completion in 2023, involves the creation of a new 270,000-square-foot inpatient tower with 96 beds and 19 procedure rooms, as well as a universal room concept to achieve flexibility and reduce the possibility of future renovations. Finally, the independent phase involves the construction of a new, 110,000-square-foot medical office building on the medical center’s Scarborough Campus. This new center will house neuroscience, vascular surgery and ENT practices.

“As the physician leader on our building project, I have found the project support, knowledge base and management that Colliers provides to be invaluable,” said **Michael R. Baumann**, MD, FACEP, Chair, Department of Emergency Medicine, MaineHealth. “They are extremely knowledgeable in all aspects of the project and provide overall management of the building with ease and elegance.”

“Trust is the buzz word in healthcare in 2020, and we had absolute trust in the work being done by Colliers,” said **Joel Botler**, MD, Chief Medical Officer, MaineHealth. “Like Colliers, one of our core values is ownership and they define that value.”

“Colliers is honored to deliver an innovative facility to meet the most urgent healthcare needs of the future,” said Gagnon. “This new expansion will help empower Maine Medical Center to champion patient care and research for decades to come.”

Colliers is working closely with Perkins & Will, Turner Construction, Thornton Tomasetti, Consigli Construction and SMRT to deliver the expansion.

About Colliers Project Leaders | USA

Colliers Project Leaders | USA is a division of Colliers International with offices located throughout the US. Focused on project management, development management, planning and advisory, and commissioning and energy services, Colliers Project Leaders | USA brings expert problem-solving solutions to large and complex construction projects.
